DETAILED ACTION

In response to the amendment filed on 11/08/2004, all the amendments have been entered, and the action follows:

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

3. Claims 1, 2, 8-10, 11-16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kamiya et al (US 6175772).

With respect to claims 1, 2, 8-10, 11-16 the rejections are maintained and are incorporated with reference as set forth in the prior office action paper number 18.

4. Claims 3-6 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kamiya in view of Diamond et al (US 5314336).

With respect to claims 3-6 the rejections are maintained and are incorporated with reference as set forth in the prior office action paper number 18.

5. Claim 7 is rejected under 35 U.S.C. 103(a) as being unpatentable over Kamiya in view of Black et al (US 5802220).

With respect to claim 7 the rejections are maintained and are incorporated with reference as set forth in the prior office action paper number 18.

Response to Arguments

6. Applicant's arguments filed 11/08/2004 have been fully considered but they are not persuasive.

Applicant argues that the reference Kamiya fails to disclose biometric recognition (see page 10 paragraph 5 of remarks). Examiner disagrees and would like to point out that the claim limitations are given their broadest reasonable interpretations. And, in the instant case, Kamiya discloses an acquisition device to acquire a representation of a facial characteristics of an object, (see figure 3, numerical 2 a camera for taking pictures of the individual and the surrounding see col. 4, lines 15-17 and col. 6, lines 2-5); and

Art Unit: 2623

facial image recognition, (see figure 3, numerical 20, and col. 4, lines 10-21 and col. 4, lines 48-59, wherein the user, i.e. human as claimed in claim 12, is imaged and the image is used to recognize the facial expression "facial recognition") as claimed.

Examiner would like to point out that the biometric recognition is a broader term and does includes and not limited to the following:

Fingerprint, facial, hair, nail, hand, or any other biological data.

Therefore, as disclose by the reference Kamiya the facial expression recognition does fall in the same category of biological data and can be read as biometric recognition.

Conclusion

7. All claims are drawn to the same invention claimed in the application prior to the entry of the submission under 37 CFR 1.114 and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the application prior to entry under 37 CFR 1.114. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action after the filing of a request for continued examination and the submission under 37 CFR 1.114. See MPEP § 706.07(b).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 2623

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
